

# NSBK'S RASESPECIAL 2026

Her kommer en liten presentasjon av lørdagens dommer, Christian Janes.

In 1979 I bought my first pure bred dog, a Beauceron male from the very first litter of that breed in Austria.

In 1981 the first Berger des Pyrenees female joined our family and we started breeding in 1985, becoming very successful over the years. Austria had a Club for all French Shepherds and I was a board member (president of breeding commission) for more than 10 years. 1992 we had our first litter of Berger Picard and my wife had Pomeranians too.

Since 1986 I have been a FCI judge for all French shepherd dogs. Over the years I added other dog breeds from FCI-group 1, 2 and 5. I have been interested in Saint Bernards since many years and I am a board member from the Austrian Saint Bernard Club since 2011, since some years I am president of breeding commission.

I have judged Saint Bernards (since 18 years) at numerous international and club shows in many European countries, also at WUSB-shows and at European dog show.
